About the Moebius Nature Center

The City of Aurora dedicated 40 acres of land in 1998 for the development of a community nature preserve and educational center, to honor long-time residents Arthur and Ruth Moebius (pictured right).

The property, located east of Sunny Lake Park, at 929 East Mennonite Road, was renovated through the efforts of a fund raising campaign, which ran from 2003-2005. The renovation of the property was completed in the summer of 2006. The construction and development was privately funded and on-going volunteer and private donations allow the Moebius Nature Center to continue its conservation efforts, community awareness, and educational outreach programs.

This beautiful, fun, educational and social property is seeking your support and your participation. We look forward to seeing you and yours at an event or on the trails!
